

Dulce Herrera

FULL STACK WEB DEVELOPER

I am a web developer with a great passion for technology. My main qualities are the passion and dedication that I bring to everything I do. I can be a great asset within a company and contribute to its success.

Professional Experience

LABORATORY INTERN 2018

- Implemented methodology in the project "Development of Catalysts and Their Application in PEM Type Fuel Cells".
- Prepared a membrane-electrode with rhodium to measure its catalytic activity.
- Provided training to students on the use and handling of equipment from the laboratory.

QUALITY CONTROL INSPECTOR 2016

- Trained new members in the use and management of quality laboratory equipments and tools, as well as in sampling and quality testing.
- Developed and implemented project "Adjustment of the Calibrator of the Lloyd Equipment for Leak Detection in PRTC Syringes".
- Performed tests in conjunction with validation team to introduce new product.
- Scheduled frequent clean room audits to detect product defects prior to batch completion.
